CHARACTER

There is something subtle in the hand-made pottery produced by the Mizner Industries which raises it above the "common clay" from which it is created. That something is CHARACTER. Each piece of pottery is made entirely by hand and possesses its own individuality. Although produced in standard shapes, which are copies of famous designs, pots of the same style present a variation in character. This marked character of Mizner Pottery gives it a lasting attractiveness. You will not tire of Mizner Pottery. It becomes a source of constant enjoyment.

Place a few pieces in those noticeable vacancies in and about your home which you have been wanting to fill. An expression of unusual beauty is always achieved by Mizner Pottery well arranged among artistic furnishings. Its brightness, its originality, its character will give you that lasting satisfaction obtainable from products of quality.
